

Leg Drill Model ACX-9550-MI

Specifications:

Chuck Size:

22x108MM

Bore and Stroke:

2-5/8 (66.7mm) Bore x 3" (76mm) Stroke

Weight:

59Lbs (26.8 Kg)

Vibration:

1750 vibration per minute

Accessories:

All Air Coupling / Fittings

The ACX-9550-MI is an economical leg drill with powerful torque and percussive forces. It is designed for long hold drilling. The powerful torque and percussive force generated by the long stroke mechanism and the high efficiency tubular valve enable a efficient and superb performance down to about six meters even in the toughest drilling applications. The ACX-9550-MI Leg drill is fast, efficient while remaining durable and easy to handle.
